SKILLS

Languages	C++, Python, Java, HTML/CSS, Java/TypeScript, SQL
Frameworks and Tools	Node.js, React.js, TensorFlow, Springboot, GraphQL, Git, Next.js

WORK EXPERIENCE

Full Stack Developer at SS&C Technologies *May 2020 – August 2020*

- Developed a Server Inventorying Tool that scans cloud servers for VM instances and records all installed packages and executables.
- Stores gathered data in a GraphQL database, and created queries and mutations to fetch data using REST api calls from an Express server.
- Displayed all data on a web app created with React and Relay, and made Inventorying scripts in Python that were callable via Ansible
- Also worked on Developer Portal, a portal used by companies to retrieve APIs they created.
- Created new pages on the site using Angular and Bootstrap to manage different resources
- Abstracted Java Springboot backend to not be reliant on Kong, and allow client choice of API management service
- Created new REST endpoints to store and retrieve resource configurations with a PostgreSQL database, secured with Keycloak

PROJECTS

Flower Identification Android App *github.com/danielsqli/FlowerID-App*

- Created an app in team of 2 that identifies flower species from a taken picture.
- Used TensorFlow and Keras to create a Convolutional Neural Network, and optimized it with help of visualisation using MatPlotLib.
- Developed app with React Native, integrating the machine learning model into the app locally with TensorflowJS
- Deployed release build of the app to the Play Store

EDUCATION

University of Waterloo (Waterloo, Ontario) *September 2019 – Present*
Candidate for Bachelors of Computer Science Cumulative Average: 88.20%

EXTRA-CURRICULAR ACTIVITIES

Team 4001 Robotics – Lead Programmer *2015 – 2019*

- Directed programming of robot, and designed teleoperated component, using Object Oriented Programming in Java in an agile environment.
- Brainstormed potential autonomous paths using PID technologies (Proportional – Integral – Derivative) and optimized with Bézier curves
- Participated in competition and qualified for provincials.
